**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need more competition. We have limited and terrible internet options, but local providers have entered the market to fill the service gap. These local providers are a good start, but any actions that prevent them from competing and providing service only serves the profits of existing and terrible providers - AT&T, Verizon, Comcast/Xfinity to name a few.

I chose Sonic.net because they offer internet without attachments. Comcast forces me to pick bundles, else I deal with enormous monthly charges. Comcast attempts to sell me on products that I don't want. Comcast has terrible outsourced customer support. Comcast continues to find ways to sneak in fees that provide no customer value.

Please do not destroy a market that already has limited competition.

Thank you.
